

K-Love gets me through my day here in Montana. It's great and needs to stay on all over so people can turn their lives to God. I see alot of bumper stickers with K-Love and know there are other people that listen just like I do everyday. My channel is always on K-Love. We have trouble with gangs in our little town and I think K-Love can help these people find the right way to live if they would listen to K-Love. Please keep K-Love on the FM air. I need them and alot of other people do to. I will continue to fight for them as long as they need me to. They touch my soul in a special way with their staff and the music they play. Thanks and God bless
